Protection That Plays All Four QUARTERS
Orbenin-DC® (benzathine cloxacillin) delivers hard-working, convenient protection

★ Broad-spectrum dry-cow mastitis treatment
★ The shortest required dry period
★ Zero-hour milk withhold – competitors require up to 96 hours
★ Puts fresh cows into the milking string faster for up to 11 extra milkings per lactation, per cow

Get all the protection with none of the compromises. Ask your veterinarian about Orbenin-DC.

ORBERIN-DC® (benzathine cloxacillin) delivers hard-working, convenient protection
